

LENGTH: 1 Hour

CREDITS: 1

HSW: Yes

DESCRIPTION

Gypsum wallboard has been utilized in construction since 1917. It might be one of the most versatile building materials ever invented. But how many people really know gypsum, or perhaps were afraid to ask the question? This interactive presentation will walk you through the basics of gypsum board and introduce you to the latest innovation of high-performance products available in the marketplace.

LEARNING OBJECTIVES

At the end of this program the participants will be able to identify the appropriate gypsum board for the intended application so that the system that it is designed for performs correctly.

HOW TAUGHT

The facilitator utilizes a PowerPoint presentation. Samples, test data and exercises are used based on the topic of discussion. The program concludes with an optional ten question quiz.

A/V NEEDED

Electrical power and a screen for the PowerPoint presentation.

TARGETED AUDIENCE

Architects, Specification Writers, Design Professionals, Facility Managers, School Boards, Architecture and Design Students, Building Owners, etc. The ideal audience size can be one-on-one or over 50. This program meets every experience level, with time designed into the program for questions and answers.

FACILITATOR QUALIFICATIONS

National Gypsum Certified Presenters only.

COST

There is no cost to bring this program into your firm or chapter.

OTHER

NGC offers Certificates of Participation for reciprocating association members.
