

GYPSUM BOARD: MORE THAN RECYCLED CONTENT

AIA/CES Registered Provider Program Summary
Provider: National Gypsum
Program Number: NGC038

LENGTH: 1 Hour

CREDITS: 1

HSW: Yes

SD: Yes

DESCRIPTION

Provides an overview of gypsum board with emphasis on the characteristics that contribute to sustainable design. Includes indoor air quality and eliminating waste and selecting the appropriate product for the job conditions.

LEARNING OBJECTIVES

Program explains how gypsum manufacturing process minimizes environmental impact and how recycled content applies to gypsum board. It also covers how gypsum board should be transported, stored, handled, installed and maintained in order to eliminate mold and mildew. It concludes with how gypsum board contributes to healthy indoor air quality and how specialty product applications can optimize indoor air quality, mold prevention, durability and fire safety.

HOW TAUGHT

The facilitator utilizes a PowerPoint presentation. Samples, test data and exercises are used based on the topic of discussion. The program concludes with an optional ten question quiz.

A/V NEEDED

Electrical power and a screen for the PowerPoint presentation.

TARGETED AUDIENCE

Architects, Specification Writers, Design Professionals, Facility Managers, School Boards, Architecture and Design Students, Building Owners, etc. The ideal audience size can be one-on-one or over 50. This program meets every experience level, with time designed into the program for questions and answers.

FACILITATOR QUALIFICATIONS

National Gypsum Certified Presenters only.

COST

There is no cost to bring this program into your firm or chapter.

OTHER

NGC offers Certificates of Participation for reciprocating association members.
