

CEMENT BOARD AND EXTERIOR FINISHING SYSTEMS

AIA/CES Registered Provider Program Summary
Provider: National Gypsum
Program Number: NGC045

LENGTH: 1 Hour

CREDITS: 1

HSW: Yes

DESCRIPTION

Provides an overview of cement backer board, features and benefits, and versatile interior and exterior applications with a focus on exterior applications, including Cement Board Stucco Systems (CBSS) and Cement Board Masonry Veneer (CBMV). The program reviews CBSS and CBMV components and performance benefits.

LEARNING OBJECTIVES

Participants will be able to describe and compare three different types of cement backer board in terms of composition, characteristics and applications. Understand Cement Board Stucco System (CBSS) features and performance benefits, and compare to traditional stucco installation systems. Understand Cement Board Masonry Veneer (CMVS) features and performance benefits and compare to traditional masonry installation systems.

HOW TAUGHT

The facilitator utilizes a PowerPoint presentation. Samples, test data and exercises are used based on the topic of discussion. The program concludes with an optional ten question quiz.

A/V NEEDED

Electrical power and a screen for the PowerPoint presentation.

TARGETED AUDIENCE

Architects, Specification Writers, Design Professionals, Facility Managers, School Boards, Architecture and Design Students, Building Owners, etc. The ideal audience size can be one-on-one or over 50. This program meets every experience level, with time designed into the program for questions and answers.

FACILITATOR QUALIFICATIONS

National Gypsum Certified Presenters only.

COST

There is no cost to bring this program into your firm or chapter.

OTHER

NGC offers Certificates of Participation for reciprocating association members.
