DEXcell Glass Mat Roof Boards
by National Gypsum Company

CLASSIFICATION: 07 50 00.00 Thermal and Moisture Protection (insulation water barrier): Membrane Roofing

PRODUCT DESCRIPTION: DEXcell® BRAND Glass Mat Roof Board has coated fiberglass facers and an enhanced mold-resistant gypsum core. This mold- and moisture-resistant gypsum panel is a substrate board, thermal barrier and/or coverboard for commercial roofing applications. It scores and cuts easily, and is specially coated on the front, back and sides for easy handling. Use it for a wide variety of roofing systems, including mechanically attached and ballasted single-ply membranes, thermal barriers and metal roofing. This HPD covers 5/8” DEXcell® BRAND Glass Mat Roof Board and 5/8” DEXcell® BRAND FA Glass Mat Roof Board products.

Name and Identifier Provided?

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

This Health Product Declaration (HPD) was completed in accordance with the HPD Standard version 2.1, and discloses hazards associated with all substances present at or above 1000 parts per million (ppm) in the finished product, along with the role and percent weight. Therefore, this HPD qualifies for the LEED v4 MR credit Building Product Disclosure and Optimization: Material Ingredient Reporting (Option 1). Substances not “Identified” are those considered proprietary to suppliers.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

No certifications have been added to this HPD.

CERTIFICATIONS AND COMPLIANCE

See Section 3 for additional listings.

DEXcell Glass Mat Roof Boards
hpdrepository.hpd-collaborative.org

HPD v2.1 created via HPDC Builder Page 1 of 8
This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-1-standard](http://www.hpd-collaborative.org/hpd-2-1-standard)

HAZARDS:

CANCER

US CDC - Occupational Carcinogens

Occupational Carcinogen

US NIH - Report on Carcinogens

Known to be Human Carcinogen (respirable size - occupational setting)

MAK

Carcinogen Group 1 - Substances that cause cancer in man

CA EPA - Prop 65

Carcinogen - specific to chemical form or exposure route

IARC

Group 1 - Agent is carcinogenic to humans - inhaled from occupational sources

New Zealand - GHS

6.7A - Known or presumed human carcinogens

Japan - GHS

Carcinogenicity - Category 1A

Australia - GHS

H350 - May cause cancer

Australia - GHS

H350i - May cause cancer by inhalation

SUBSTANCE NOTES:

Quartz is one of several compounds with warnings restricted to respirable forms (Pharos CML). Exposures to respirable crystalline silica are not expected during the recommended use of this product. Awaiting full GreenScreen Assessment for form specific hazards for this compound (http://ow.ly/Z5ken).

**SUBSTANCE NOTES:** Potential Residual/Impurity of Glass/Mineral Fiber (Pharos CML).
Section 3: Certifications and Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Residuals and Impurities have been considered as stated in the Material Notes for each disclosed material.
Section 6: References

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:
- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
